Mining is proposed to take place in six (6) phases to support current and anticipated growth and local development with minimal impact to surrounding land uses. An approved Reclamation Plan for mining operations was issued by the Idaho Department of Lands which states that upon closure of each phase, the land would be returned to its existing use as farm ground. Additionally, phased areas not actively being mined will continue to be farmed. A Traffic Impact Study was completed for three (3) road segments and two (2) intersections as required by Bingham County Public Works. Access to the property is proposed to extend from 600 W Clark Road. The parcels are zoned Residential/Agriculture; however, the Property Owners are concurrently seeking a Zoning Amendment to modify the zoning designation to “A” Agriculture so that the desired land use may be considered for approval pursuant to Bingham County Code Section 10-5-3 *Land Use Chart*, Title 10 Chapter 8 *Conditional Use Permit*, and subject to compliance with the Specific Use Performance Standards of Bingham County Code Section 10-7-19 *Gravel Pits, Rock Quarries, Sand and Clay Pits*. A Conditional Use Permit will only be issued if the Planning and Zoning Commission approves the Conditional Use Permit Application and if the Zoning Amendment Application is approved by the Board of County Commissioners.
