Subject: Impound fence

CAUTION: This email originated from outside the organization. DO NOT click links or open attachments unless you recognize the sender and know the content is safe.

Tiffany,

In reference to the fence application please consider the following information.

The fence will enclose an impound yard for a local towing company that currently operates out of my commercial property. It is going to be on a parcel adjoining the lot that has the storage units and my building and will use the same access. It will be an 8' tall chain link fence with white vinyl slats in the chain link all the way around. It would hold up to 20 cars as needed for a short term until the insurance company or lien holder retrieves them. It will be behind an access controlled gate and will also have a chained cantilever gate on the yard.

Please let me know if you have any other questions.

Thanks,

Kendall

10-7-37: VEHICLE IMPOUND YARD:

- A. Outside storage and outside activity areas shall be maintained in an orderly manner so as not to create a public nuisance.
- B. No portion of the vehicle impound yard, outside storage areas and/or outside activity areas may be visible from any highway, interstate, gateway corridor, principal arterial, or minor arterial as herein defined.
- C. All materials shall be stored within the required yards.
- D. Stored items shall not block sidewalks or parking areas and may not impede vehicular or pedestrian traffic.
- E. Closed vision fence or wall and screening materials shall be a minimum of eight feet (8') in height.
- F. A fence plan and materials list must be approved by the commission and the Building Department. All fence material(s) must be with new construction material of eight foot (8') vertical height of metal or chain link with sight obscuring slats. All required permits for the fence must be obtained prior to the start of construction. The fence must be completed and inspected prior to operating the impound yard.
- G. Outdoor storage shall be incorporated into the overall design of buildings and landscaping so that the visual and acoustic impacts of these functions are fully contained and out of view from adjacent properties and public streets.
- H. No vehicles or materials shall be stored so they exceed the height of the fence or wall.
- I. The use shall not constitute a junkyard as herein defined. (Ord. 2012-08, 10-9-2012, eff. 10-26-2012)
