**B. PUBLIC HEARING ITEMS:**

**1. CONDITIONAL USE PERMIT: GRAVEL PIT/MINING – CRUSHING/ EXCAVATION OF GRAVEL OPERATION IN AN “A” AGRICULTURE AND “A/NR” AGRICULTURE/NATURAL RESOURCES ZONING DISTRICT (ACTION ITEM: DECISION)** Property owners, B/J Livestock Inc., request a Conditional Use Permit to establish a gravel mining operation on approx. 10-acres of two parcels totaling approx. 140.68 acres zoned “A” Agriculture and “A/NR” Agriculture/Natural Resources. The purpose is for extracting aggregate materials to be sold to commercial vendors as well as the public; aggregate materials produced will include bank run, engineered fill, road base, sand, fine sand, rock, washed materials and landscape rocks. There are no intentions of using a hot mix plant at this time and therefore is not included in the Application. The pit is proposed to have a 100-foot buffer zone and would be partially surrounded by lava flows or an eight (8) foot berm (specifically on the south and southeast boundary) to obstruct the view to the surrounding areas. It is anticipated there will be between 0-50 trucks per day accessing the Pit 1-4 times per day. The depth of the Pit is anticipated to be 20-feet but may extend down 30-40 feet if approved by the Planning and Zoning Commission. Pit hours of operation are proposed to be Monday through Saturday from 7:00 a.m. to 7:00 p.m. Fugitive dust will be controlled by buffers and barriers to keep dust in the pit area as well as sprinkler systems proposed to utilize an existing well on the property. Additionally, dust abatement will occur on the gravel road in and out of the Pit area. Crushing of material will be done within the pit and will be subject to any conditions placed on dust, noise, and hours of operation as determined by the commission and/or any state or federal agency. Once the pit is depleted or mined out, all temporary buildings and structures, equipment for weighing, loading, measuring, etc. will be removed per Code. Pursuant to the Applicant’s approved Reclamation Plan for mining operations at this site issued by the Idaho Department of Lands, upon closure topsoil will be returned to the land and native vegetation will be planted. The Application may be considered for approval pursuant to Bingham County Code Section 10-5-3 Land Use Chart and must comply with the Specific Use Performance Standards of Section 10-7-19.
